

GILBERT BOAHEN

NR4 7TJ, Norwich | +44 7838886460 | gilbertboahen25@gmail.com

CAREER OBJECTIVES

Motivated and detail-oriented digital enthusiast with a foundation in web development, UI/UX principles, and project coordination. Currently designing a job-seeking website for my dissertation, I am eager to apply my skills to enhance digital user experiences and contribute to a meaningful mission. Passionate about using technology to create positive social impact.

TECHNICAL SKILLS

- Web Development: HTML, CSS, Laravel (beginner), JavaScript
- User Experience: Basic UI/UX design, user journey optimization
- Project Coordination: Task management, collaborative development, documentation
- Tools: GitHub
- Soft Skills: Proactive, organized, team-oriented, strong communication

PROJECTS

Dissertation Project – Job-Seeking Website (In Progress)

- Designing a job board website to connect employers and job seekers in Ghana

- Built using HTML, CSS, JavaScript, SQL, and responsive design principles
- Focus on usability, employer verification, and user matching

Group Website Development Project

- Developed a team-based website with HTML/CSS
- Used GitHub for source control and task sharing
- Contributed to both frontend layout and backend logic
